**Re: Bell Atlantic Short Term Notice of Network Change; CC Docket 96-98, CFR  
47, Sections 51.325 - 51.335**

As required under Section 51.333 of the Commission's Rules for short term notice changes, a copy of the attached public notice was sent on May 5, 1997 to each telephone exchange service provider that directly connects with Bell Atlantic-New Jersey, Inc's network. A list of the recipients is attached to the certificate of service that follows the text of the notice.

Acknowledgement of date of receipt of this material is requested. A duplicate of this letter is attached for this purpose.

Please do not hesitate to contact me if you have any questions concerning this matter.

Sincerely,

Attachment

Re: Network Disclosure/Utility Telemetry Service, New  
Jersey Tandem

Dear Carrier:

Bell Atlantic intends to file with the FCC the enclosed network disclosures on less than six months notice in order to meet the immediate service needs of specific customers and to implement a previously-planned tandem switch deployment. Pursuant to 47 C.F.R. § 51.333, the enclosed disclosure notices are being served on you in anticipation of this short-notice filing. The filing will be made no less than five business days after the date of this letter.

Sincerely,

A handwritten signature in cursive script that reads "Lawrence W. Katz".

Lawrence W. Katz

Enclosure

**Bell Atlantic  
Network Disclosure**

**Name:** New Jersey Tandem

**Types of Change:**

Bell Atlantic will add a new DMS-200 tandem switch to its network.

For more specific technical information on the DMS 200 tandem switch contact:

Steve Constantine

5 Greentree Center

Marlton, New Jersey 08053

609-985-3890

**Date changes are to occur:**

The new tandem switch is tentatively scheduled to be deployed in October, 1997. To confirm the actual deployment date, consult the contact listed below.

**Location changes are to occur:**

The new tandem is planned to be located in the Rochelle Park Central Office in New Jersey.

**Reasonably foreseeable impact of change:**

The tandem will provide additional trunk terminations in the North Jersey LATA to support intraLata service and new trunk requests for interexchange carriers, cellular carriers and competitive local exchange carriers.

**Bell Atlantic  
Network Disclosure**

**Name:** Utility Telemetry Service

**Type of Change:** Bell Atlantic Utility Telemetry Service provides access to meter reading

devices connected to the customer's loop. A connection occurs when equipment at the utility's location connects a specific customer line to a utility telemetry trunk. This service will not allow connection to a busy line. The duration of the connection is limited and is controlled by the network switch.

For additional information on the utility telemetry trunk interface, the following document is available:

IEEE Standard for UTILITY TELEMETRY SERVICE ARCHITECTURE  
for Switched Telephone Network Communications  
IEEE Document 1390 - Outbound Utility COSU access method

To obtain this document contact:

IEEE Operations Center  
Sales Office  
445 Hoes Lane  
PO Box 1331  
Piscataway, NJ 08855-1331  
1 800 -678- IEEE

Siemens Stromberg-Carlson  
900 Broken Sound Parkway  
Boca Raton, FL 33487  
Phone: 561-955-6061

**Dates changes are to occur:**

Utility Telemetry Service is initially scheduled to be offered to specific customers in New Jersey during June, and in Pennsylvania during July and in other jurisdictions thereafter. To confirm the actual deployment date, contact the manager listed below.

**Locations changes are to occur:**

Bell Atlantic Utility Telemetry Service is planned for deployment in selected central offices throughout Bell Atlantic.

**Reasonably foreseeable impact of change:**

CPE vendors who are interested in providing CPE for this service will need to meet the interface requirements.

**Bell Atlantic Contact:**

## CERTIFICATE OF SERVICE

I hereby certify that at least five business days in advance of the filing of the foregoing Notices with the Commission, Bell Atlantic served a copy of such Notices upon the following carriers, which constitute each telephone exchange service provider that directly interconnects with Bell Atlantic's network.

A handwritten signature in black ink, appearing to read "Jonathan R. Shipler", is written over a horizontal line. The signature is fluid and cursive, with a large initial 'J' and 'S'.

Jonathan R. Shipler
